LRDC INFORMATION

1) **Purpose and Use of the Buyers Guide**

The purpose of the Alberta Education Learning Resources Distributing Centre (LRDC) Buyers Guide is to provide **product listings of all authorized learning resources that may be purchased.** It is the also the sole Alberta Education Information document which identifies all Alberta Education authorized, approved and/or developed learning resources for use by teachers, students, parents and others involved in delivering the Alberta curriculum.

* * * * * * * * * * * *

2) **Improved Access to Buyers Guide Products and Ordering**

Accessibility, Availability & Affordability

a) **Accessibility, Availability and Affordability of Learning Resources**

The Buyers Guide provides important information about the accessibility, availability and affordability of (a) learning resources that should be used to meet learner expectations as defined in the Alberta Course of Studies curriculum and (b) other learning products that could be used by teachers, students and parents to enhance student learning.

On-Line Dial-In Services

b) **On-Line Dial-In Services**

In addition to the 1995-96 "paper" Buyers Guide, the LRDC is excited and pleased to offer our Alberta, Northwest Territories, Canadian and international customers other options which are aimed to increase customer convenience of accessibility to our products and services and current, up-to-date information and product listing.

The on-line dial-in service, which is available, 24 hours a day, 7 days a week, to customers who have been allocated a customer access code, supports 5 service features:

- Buyers Guide browsing for explaining
  1) Title description
  2) Product Usage Code (e.g. Language, Subject, Grade/Course)
- Creation of purchase orders (order entry) including the "commitment" of quantity ordered
- Inquiring on the status of a purchase
- Credit Allocation Information
- Bulletin Board

A LRDC Dial-In Service Users Manual and customer access code are available on request. If you need information or if you can think of other features you would like added to the system, please contact Sharee Jones, Customer Service and Sales Supervisor.

It should be noted that the "creation of an official customer purchase order" needs to be made in accordance with local policy and by those who have been empowered to make financial commitments on behalf of the school and school authority.

CD Rom Version

c) **CD Rom Version**

The 1995-96 Buyers Guide is also available on a CD Rom format that includes Worldview software (license to LRDC) for full viewing and searching. All school jurisdictions will get at least one Beta version and a short questionnaire for their feedback. The May/June, 1995 update, which will include all new additions to the March version will be available for purchase at a nominal cost.

d) **Internet**

Internet

The LRDC 1995-96 Buyers Guide will also be accessible for viewing and ordering on INTERNET. This means that any Canadian school involved in the CANARIE (Canadian Network for the Advancement of Research, Industry and Education) SCHOOLNET project will have easy direct access.

The LRDC believes all these new "value-added" features will result in quicker, better and cheaper learning resources services to each existing and new customers.

* * * * * * * * * * * *

3) Learning Resources Credit Allocation (LRCA)

a) **Purpose**

The purpose of the 1995-96 Learning Resources Credit Allocation (LRCA) is:

Purpose

> To assist eligible Alberta school authorities in providing educational programming and enhancing learning of Alberta Grades 1 to 12 students, learning resources are available at subsidized (25%) prices to a credit dollar amount maximum when carried by and purchased from the LRDC.

b) **Operating Principles**

Operating Principles

An information package was sent to all school authorities on March 7, 1995 . Refer to that package for more detailed information.

- School authorities eligible to receive the LRCA are:

  All school authorities receiving ASFF per pupil instructional grant; Accredited Private Schools under Section 22(2) of the School Act; and Band Operated and Federal Government administered Indian Schools.

- **$9.30** per eligible School Authority grades 1 to 12 students, counted as of September 30, 1994, has been allocated ($4.5M in total) as a **credit** at the LRDC for the **purchase of any** learning resource carried by the LRDC.

c) **Operational Procedures**

Operational Procedures

- The **1995-96 credit ends March 31, 1996**.

- The LRDC will record and report LRCA purchases by individual school, on behalf of the school authority, only if requested by completing Section I of Appendix B of the LRCA information package and returning it to the LRDC by March 24/95; however, purchase orders must identify the school.

- The 25% LRCA **will automatically be applied** to the selling price of any product purchased from the LRDC until the full credit amount is used by the school authority. Application of the credit is made at time of invoicing.

Note: LRDC invoices identify the (a) amount of LRCA used and (b) amount remaining, by school and school authority

- The LRDC will charge the regular selling price after the credit amount is fully utilized.

- For annual financial accounting and reporting purposes, a receiving school authority should show the amount of credit allocation received (utilized) as a Provincial Revenue and also as an expenditure.

* * * * * * * * * * * *

4) **Distribution of the Hard Copy and CD Rom Versions of the Buyers Guide and Supplements**

Timing and Distribution Basis

a) **Timing and Distribution Basis**

In early April of each year, a new Buyers Guide (insert) is distributed to each **School Jurisdiction Central Office** for further redistribution to their individual schools. The distribution ratio is an average of 1 to 3 inserts per school and the same for Central Office usage. Schools that may have no formal Central Office such as Private Schools, Indian Band Schools, ECS Operators, Northwest Territories Schools, etc., receive one copy directly from the LRDC. **Additional 1995-96 Buyers Guide inserts and binders are listed for sale** under "Miscellaneous" in the General Learning Resources section.

CD Rom Version

b) **CD Rom Version**

Starting in April, 1995 each school authority will also receive at least 1 CD Rom version of the Buyers Guide along with the Senior High and Junior High handbooks and Worldview software to provide enhanced viewing and searching capabilities.

The May/June CD Rom release will have the April Buyers Guide along with all new and withdrawn product listings. The CD Rom version will be available but at a selling price of only $5.00; the only difference between the May/June and April CD Rom is the addition of new and withdrawn listings.

Consolidated Supplements

c) **Consolidated Supplements**

The LRDC will continue to distribute hard copy Buyers Guide Supplements in 1995-96 which list new authorized resources since the Buyers Guide. Old Supplements should be recycled and replaced with the new Supplement section after corresponding tab. This format will ensure customers will have to look in no more than two Buyers Guide sections/ documents to identify products they want to purchase.

On-line and Internet

d) **On-Line Dial-In and Internet Access Routes**

The on-line dial-in feature may meet the requirement for many customers making the hardcopy version redundant.

1996-97 Buyers Guide

e) **1996-97 Buyers Guide**

The advent of an electronic ordering and an electronic Buyers Guide in 1995-96 should result in a significantly decreased customer requirement for the "hard copy" paper Buyers Guides in 1996-97. It is expected that schools would request CD Rom versions or use the on-line and Internet access methods. We'll communicate this electronic evolution with you over the duration of the year.

* * * * * * * * * * * *

10) **Linkage of LRDC Buyers Guide to Alberta Education Program of Studies and Course of Studies**

Alberta Education groups student learning resources for use in Alberta schools into two categories - **Basic and Support**. This classification is intended to communicate the relative importance and role of student learning resource. Authorization means Alberta Education has judged these student resources as the most appropriate for a course or Program of Studies and that they have met Alberta Education criteria for acceptability.

a) **Student Basic Learning Resources** are authorized as the most appropriate for addressing the majority of learner expectations of course(s), substantial components of course(s), or the most appropriate for meeting general learner expectations across two or more grade levels, subject areas, or programs as outlined in provincial Programs of Study.

b) **Student Support Learning Resources** are authorized to assist in addressing some of the learner expectations of course(s); or assist in meeting the learner expectations across two or more grade levels, subject areas, or programs as outlined in the provincial Programs of Study.

c) **Authorized Teaching Resources** are teaching resources produced externally by publishers, that meet the criteria of review and usually support a student text.

A Course of Studies is a legal document prepared for each course in each subject areas at each level of learning. It may be a sub-unit of a Program of Studies. The major components of a Course of Studies are the philosophy, rationale, learner expectations and a listing of basic learning resources. A **Program of Studies** is a sequence of courses of study. Teachers may also want to consult an existing Curriculum Guide for suggestions on learning resource usage in the classroom.

Teachers and administrators are encouraged to consult the applicable Alberta Education "Program of Studies" and "Course of Studies" to identify appropriate learning resources for use in the classroom. **These documents are listed in the Alberta Education Publications section in this Buyers Guide**.

11) **Pricing**

Pricing

a) **Selling Price of all Learning Resource Products**

Prices quoted are gross selling prices and do not include applicable credit allocations (LRCA) or GST. For more information refer to page GI - 2.

b) **Selling Price Determination**

We try to keep prices as low as possible by keeping costs low. The **LRDC operates on a break-even financial objective** with a cost recovery mark-up on all products sold. There are two primary determinants of the LRDC Selling Price: (1) unit cost of products to the LRDC from publishers/suppliers, and (2) a small LRDC mark-up to cover internal operating and external transportation costs. *All LRDC selling prices include shipping and handling charges to Alberta schools.*

c) **1995-96 Selling Price Impact**

1995-96 Selling Prices

The 1995-96 general net impact on prices to LRDC customers is an average increase of about 3.6% over 1994-95 prices. LRDC suppliers increased their costs to the LRDC by 3.7% while the LRDC markup on the landed cost of goods decreased from 16.75% in 1993-94 to 15.9% (decrease of 5.1%) in 1994-95 to 15.8% for 1995-96 (further decrease of 0.6%). The LRDC 1995-96 markup of 15.8% is 2.2 percentage points less than our 18.0% markup in 1987-88.

d) **Price Changes**

Price Changes During Year

The **LRDC will hold selling prices until March 31, 1996, unless unusual or exceptional circumstances warrant otherwise.**

Annual Price Changes

The LRDC introduces new year product prices effective April 1 of each year.

12) **Copyright**

The Canadian Copyright Act is a federal law which protects intellectual property, that is the products of the minds of creators. The law protects every original literary, dramatic, musical and artistic work. It protects computer programs, videos, cassettes, records, paintings, sculptures, photographs, architectural works of art, engravings, maps, etc. In 1988 the Copyright Act was amended and the penalty section was greatly enhanced. It has now become worthwhile for an action for infringement of copyright to be brought.

In Canada, the Copyright Act has never allowed the making of multiple copies of copyrighted print materials for use in classrooms. "Fair dealing," a defense to a charge of infringement, allows for the making of a copy of a non-substantial portion of a creative work for private study, research, criticism, review or newspaper summary. Anything more than that requires the permission of the author.

On March 10, 1993, Alberta's Minister of Education, Hon. Halvar C. Jonson, signed a Provincial Print Licence with the Canadian Reprography Collective (CanCopy) which allows the teachers of participating school jurisdictions and private schools to make class sets of certain materials only, in accordance with the Licence. If you school is part of the Licence, there will be a green and red poster and an Exclusions List over every photocopy machine. The terms of the Licence must be followed.

The Licence only covers print materials. The copying of computer programs must be done in accordance with the terms of the licence covering that program. Audio-visual materials being shown in a school must have a public performance licence attached to the film or the school must be covered by a site licence. For "Home Use Only" videos cannot be used in a school unless there is a public performance site licence.

Alberta Education produces many printed materials for use in Alberta schools. Many of these materials give permission for photocopying provided the purpose is educational and non-profit. Some materials have "all rights reserved" because they may contain copyrighted materials belonging to a third party from who Alberta Education has obtained permission to reproduce a certain number of copies. Always check the copyright page at the front of a document to see whether the rights are reserved or permission to copy has been given. **Distance and Correspondence Education materials have all rights reserved and therefore cannot be copied.**

The LRDC Copyright Restriction Use Certificate for Software that each school authority

has with the LRDC is to ensure that copyright is not violated for computer software purchased form the LRDC.

For further information about copyright, contact Diane Gagnon of the Legislative Services Branch at 427-2041.

		NOTE: Sex education, and AIDS education in particular, is controversial, and schools will have different opinions on how much of this material they should include in the pupils' science programs; schools with well-developed human sexuality programmes may prefer to omit much of the information in this chapter. The school jurisdiction is responsible for approving the programme of sex education activities and the resources used within their schools. Teachers are advised to ensure that their approach is consistent with school jurisdiction policy.

CAREER AND TECHNOLOGY STUDIES

WHAT IS CTS?

Career and Technology Studies (CTS) restructures and will replace the present Practical Arts courses – Business Education, Home Economics, Industrial Arts and Vocational Education. CTS also encompasses Computer Studies, Agriculture: Land And Life, and Work Experience. CTS offers new curriculum with updated processes and technologies. There will be new, up–to–date resources and expanded delivery systems.

CTS is organized into 21 strands. Each strand is composed of modules, which are blocks of learning equivalent to one high school credit. Modules are organized into three levels: introductory, intermediate and advanced. Students are expected to demonstrate a higher degree of competence and to meet higher standards as they move from the introductory level through the intermediate level to the advanced level.

WHAT ARE THE TIMELINES?

CTS strands are being phased in gradually. Each strand has an optional implementation phase, in which schools may or may not offer it. Nineteen strands are available on an optional basis as of September 1995. Full implementation of all 21 strands is scheduled for September 1997. Please see the attached CTS Implemention Schedule for more information.

HOW WILL CTS AFFECT YOU?

CTS encourages the use of a variety of print media and resources. Some resources listed in this guide will be replaced once the curriculum review process is complete. Consult the CTS Implementation Schedule before purchasing resources for current practical arts courses.

CHOICES CAREERWARE

CHOICES engages high school students in an interactive, computerized process that heightens their self-awareness, helps them set priorities, and develops career decision-making skills. Students learn what is important in finding an occupation, and are then assisted in identifying promising career paths. The program includes both the paper/pencil and computerized versions of the Career Area Interest Checklist - a self-assessment of Interests based on selections from 144 work tasks.

***The CHOICES OCCUPATIONS and EDUCATION COMPONENTS** are now combined into one integrated program. The Occupations Component contains over 1000 detailed occupation profiles, with an additional 3000 occupational descriptions. CHOICES Education compliments the CHOICES Occupational database by providing students with up-to-date information for over 400 post-secondary institutions and over 5000 programmes of study across Canada. This allows students to compare their options and plan their educational future.*

FOREWORD

DISTANCE AND CORRESPONDENCE EDUCATION PRODUCTS

1) Distance and Correspondence Education Course Materials

Alberta Education, through the Alberta Distance Learning Centre (ADLC) and Language Services Branch (LSB) develops two types of material:

a) **Distance Education Course Materials**

The ADLC and LSB are developing newly designed "Distance Education" course material that incorporates modified learning strategies and the use of technology. These products are identified as "Distance Education" (DE) materials.

b) **Correspondence Education Course Materials**

These are the course materials that have traditionally been prepared and are identified as "Correspondence Education" (CE) courses.

* * * * * * * * * * * *

2) Distance Education Materials Intended Target and Use

Distance Education materials have been developed for a variety of educational applications: (1) individual students who are unable to attend school, (2) individual students who are unable to enroll in a particular course, (3) teachers to use for either an in-classroom Distance Education Program or for regular in-classroom use, (4) teacher reference material, (5) student reference material, etc. The materials have been designed to assist in meeting individual student needs through the use of modular components as part of a learning environment strategy.

* * * * * * * * * * * *

3) Product Order Number and Usage Codes

Refer to the General Information section (Ordering Information) for explanation of LRDC product order number and product usage codes.

* * * * * * * * * * * *

4) Availability of DE/CE Course Materials

Distance/Correspondence Education materials, which are produced by the Learning Resources Distributing Centre (LRDC) are available to students and other customers at the following three sales/distribution outlets:

a) **All NON-ADLC Registered students and customers** order from the LRDC Edmonton outlet at **12360 - 142 Street facility (427-5775).**

b) **ADLC Registered students** order from the **LRDC Barrhead Distribution facility at 4801 - 63 Avenue, Barrhead, AB T7N 1P4 (674-5333)**

c) **ADLC Registered students** can personally come to register and obtain materials from the **ADLC Harley Court facility in Edmonton at 10045 - 111 Street (427-2766).**

* * * * * * * * * * * *

5) Ordering DE/CE Products

a) **The following ordering information pertains to anyone requiring Distance and/or Correspondence Education products <u>other than a person wishing to register as a student of the ADLC:</u>**

i. Use the regular LRDC ordering process for submitting orders to the LRDC. Refer to General Information section - Ordering Information.

ii. The LRDC will carry only required non-print materials developed by the ADLC and Language Services Branch and may produce some non-print materials that have been acquired by Alberta Education, with the LRDC having the right to reproduce and cost recover reproduction and handling costs. The Buyers Guide identifies most of the non-print resources that have been authorized and where they can be purchased/acquired.

iii. Most textbooks required for Distance/Correspondence Education, whether for registered or non-registered students, may be ordered from the LRDC; however some are not available (i.e. out of print) for some courses (such as the Elementary subjects and Spanish 15/25). In those cases, the only way to acquire the textbook is by registering the student(s) in the course with the ADLC (the book is then loaned to the student with a caution fee).

iv. The new Distance Education materials have been designed and published in a modular format. Because of this, all parts may not be available when the product is first released. We will minimize the number of shipments required, and in most cases the first "A" pack shipment will be followed by the remainder in a "B" pack shipment as it becomes available. Our goal is to meet all production target dates and avoid having to ship A and B packs.

v. A list of required laboratory loan supplies are provided with most science subjects. The LRDC **does** carry the kits (which include required supplies that are disposable; reusable items are provided to Registered Students only as a loan item) for Distance Education courses and Correspondence courses.

b) **The following information pertains to anyone wanting materials and registering with the ADLC as an ADLC Registered student:**

i. Application forms (available from ADLC) must be submitted by/for all students intending to register for instruction with the ADLC.

ii. Fees include cost for tuition and materials.

iii. Textbooks may be purchased from the 3 sales/distribution outlets (see Point 4) except for circumstances such as if the text for a course is no longer available.

iv. Refer to the ADLC Student Handbooks for more information.

* * * * * * * * * * * *

6) **Types of DE Course Materials**

a) Each course generally consists of 4 to 8 student modules which are intended to be used by individual students.

b) Each module generally has one student corresponding assignment booklet.

c) All courses have a Learning Facilitator's Manual (LFM) which provides teachers with hands-on assistance in "how" to deliver the Distance Education program/course. Most Learning Facilitator's Manuals contain a sample test and answers as well as the answers to the lessons; therefore, **they are available only to schools** on a school/jurisdiction purchase order and/or to teachers with a verifiable teaching certificate number.

d) Many of the teaching keys (for Correspondence courses) are poor quality in terms of reproduction. Refer to the description of the teaching key you require for information on status of print type. Handwritten keys are identified.

e) All Junior High Distance Education Courses have Student Support Guides to accompany the modules. They are intended for the Registered Student or the non-classroom student. The same information is included in the LFM for the classroom students. The LRDC has made them available in complete sets to all customers.

f) The Distance Education Program also involves a variety of non-print material. The LRDC Buyers Guide identifies a large number of the non-print materials and where you are able to access them. Many of the videos are available through the Regional and Urban Film Centres as part of an Alberta Education negotiated Provincial License; as well, many are available through ACCESS.

* * * * * * * * * * * *

7) **Pricing Structure**

General pricing for Distance and Correspondence resources are:

a) All LRDC prices are generally based upon full cost recovery of goods, reproduction and distribution costs.

b) In general, Distance Education student print material prices are $15.00 per credit, while Correspondence Education material prices are $7.00 per credit.

c) Assignment booklets are available in complete sets. Pricing is $1.75 x the number of module booklets in the set.

d) Price changes are effective April 1, 1995 except for ADLC registered students which are effective June 1, 1995.

e) All Distance and Correspondence Education materials qualify for the Learning Resources Credit Allocation (subsidy of 25% per unit) if purchased from the Learning Resources Distributing Centre by an eligible school authority. (See GI - 2 for Credit Allocation Information.)

* * * * * * * * * * * *

8) **Copyright**

Alberta Education Distance and Correspondence Education materials that have a selling price are not to be photocopied or reproduced in any form. Because of the third party provision and cost recovery nature of the production of these materials, copyright releases are not granted.

For further information about copyright, contact Diane Gagnon of the Information Access and Corporate Services branch at 427-2041.

* * * * * * * * * * * *

9) **Contact Persons**

MICROSOFT WINDOWS 95 (Microsoft)

Windows 95 operating system is a truly easy graphical interface, making your PC simpler to use and more efficient. You can install your peripherals, confident that those devices will configure automatically using it's Plug and Play technology. Windows 95 can run your current MS-DOS-based and Windows-based programs in a more stable, faster environment. It also enables a new world of robust 32-bit programs (16-bit programs will run better) that uses preemptive multitasking/multithreading to perform several actions at the same time. Windows 95 will help reduce the support burden of PC's, increase control of the desktop and improve end-user productivity.

RE: LRDC 1995 *AUGUST SUPPLEMENT* — ENGLISH LANGUAGE INSTRUCTION EDITION

Attached is the LRDC Buyers Guide 1995 *August Supplement* for your use or distribution to your staff and/or schools for purchasing of new learning resources now carried by LRDC.

The "blue supplement" section lists new learning resources which were approved since the distribution of the 1995/96 Buyers Guide in late March. This supplement features the amalgamation of all new learning resources that have been approved since the Buyers Guide and includes resources listed in our May 1995 Supplement. Please remove and recycle our May Supplement and replace it with this supplement after the supplements tab in your current Buyers Guide.

The LRDC's Buyers Guide on CD-Rom will now be available in November.

The "pink flyer" has selected Social Studies Student Basic resources that have been priced to sell.

Additional 1995 *August Supplements* are available upon request from LRDC Customer Service and Sales at 427-5775 or Fax 422-9750.

Garry Stachinski
